COLOURS OF NATURE

PRECIOUS METALS

SUBTLE & DISCRETE

COLOURS & MATERIALS

Be uniquely you. Stand out. Shine.
Be colourful.

DK • EN

Jaga har udgivet et nyt farvekort. Vores nye farvekollektioner giver os mulighed for at matche de nuværende og fremtidige indretningstrends.

Tag et kig på vores sortiment og find den perfekte løsning for dig.

3 standardfarver **NY**

Udover Trafik hvid (.33) og Sandblæst grå (001) tilbyder vi nu også Off-black (145) som standardfarve. Slank og stilfuld i al sin enkelthed!

Vær unik

De nye farver blev opdelt i 3 farvegrupper: "Stilfuld & diskret", "Naturens farver" og "Ædelmetaller". Gør klar til interiør fuld af farver og karakter!

"Stilfuld & diskret" dækker over et udvalg af neutrale farver, der diskret mikser vores enheder ind i interiøret.

"Naturens farver" er en kollektion af 16 nye farver, der indeholder pasteller, lyse og grålige nuancer. Fra sarte naturlige farver til mørk chik - for de modige.

"Ædelmetaller" omfatter 10 metal-look-a-likes, i harmoni med trends der ses i en verden af vandhaner, belysning og badeværelsestilbehør.

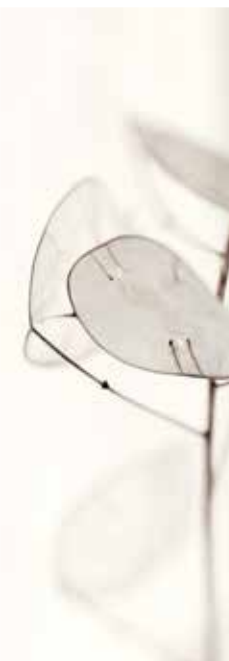

Forstå koden

Hvad står det første ciffer i farvekoden for?

- Bestillingsnr. 1xx** **Soft touch:** fint struktureret mat lak, glansgrad < 10 %
- Bestillingsnr. 2xx** **Blank:** glat glans finish, glans +/- 70 %
- Bestillingsnr. 3xx** **Satin:** glat satinlak, glansgrad +/- 30 %
- Bestillingsnr. 0xx** **Metaludseende:** design og glansniveau simulerer det ønskede materiale

Alle vores lakerede enheder er tilgængelige i alle koder, undtagen Strada, Linea Plus, Mini, Briza, Vertiga Hybrid og Freedom. Disse enheder er ikke tilgængelige i Code 2xx Glossy og Code 3xx Satin. Se hele oversigten på side 10.

Vores riste og rammer fås i alle farver med undtagelse af Sandblæst grå 001. Ved intensiv brug (placering i cirkulationsområder f.eks. foran skydevinduer og døre) er slid naturligvis uundgåeligt.

Jaga is releasing a new colour chart. Our new colour collections allow us to react perfectly to current and future interior design trends.

Take a look at our range and find the perfect reflection of your personality.

NEW

THREE standard colours

In addition to Traffic white (.33) and Sandblast grey (001), we now also offer Off-black (145) as a standard colour. Sleek and stylish in all its simplicity!

Be uniquely you

The new colours were divided into three colour groups: "Subtle & discreet", "Colours of nature" and "Precious metals". Away with white boxes, make way for interiors full of colour and character!

"Subtle & discreet" includes a selection of neutral colours that discreetly blend our units into the interior.

"Colours of nature" is a collection of 16 new colours containing bright, variegated, greyish and pastel shades. From soft natural colours to dark chic. For the bold.

"Precious metals" includes 10 metal lookalikes, in harmony with trends in the world of taps, lighting and bathroom accessories.

The code deciphered

What does the first digit of the colour code stand for?

Code 1xx **Soft touch:** finely-textured matte look, gloss degree < 10%

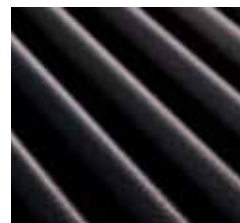

Code 2xx **Glossy:** smooth gloss finish, gloss degree +/- 70%

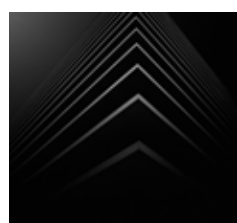

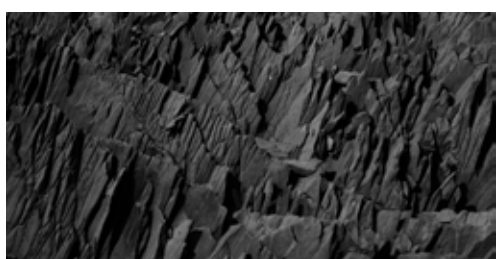

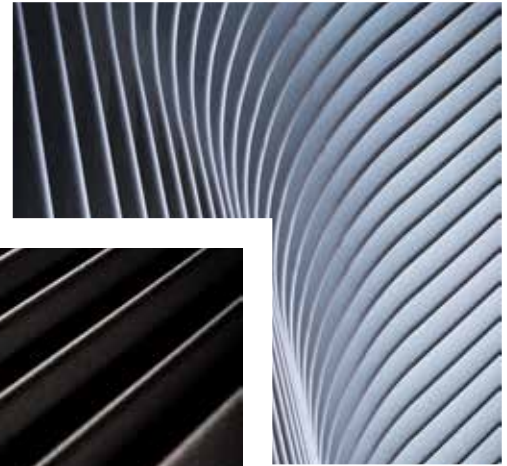

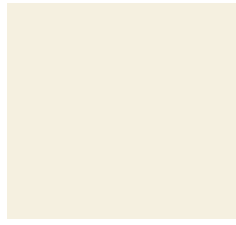

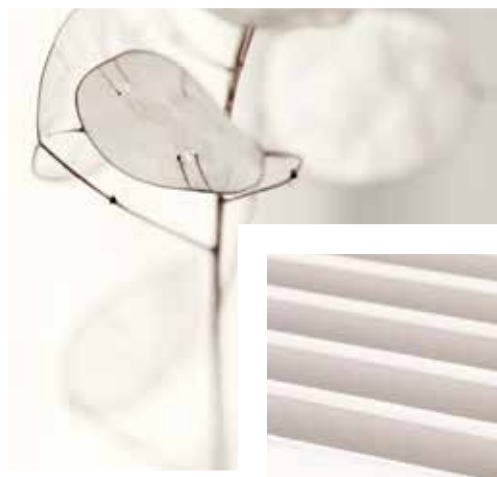

Code 3xx **Satin:** smooth satin look, gloss degree +/- 30%

Code 0xx **Metal lookalikes:** the finish and the degree of gloss simulate the imitated material

All our lacquered units are available in every code, except for the Strada, Linea Plus, Mini, Briza, Vertiga Hybrid, and Freedom units. These units are not available in **Code 2xx Glossy** and **Code 3xx Satin**. View the full overview on page 10.

Our grilles and frames are available in all colours, with the exception of Sandblast grey 001. In case of intensive use (placement in circulation areas, for example in front of sliding windows and doors), wear is, of course, inevitable.
