STANDARD COLOURS

COLOURS OF NATURE

SUBTLE & DISCREET

Colours & materials

Be uniquely you. Stand out. Shine.
Be colourful.

Jaga's new colour collections allow us to react perfectly to current and future interior design trends.

Take a look at our range and find the perfect reflection of your personality.

THREE standard colours

Our three standard colours are Traffic White (.33), Sandblast Grey (001) and Off-Black (145).

Be uniquely you

The new colours are divided into three colour groups: "Subtle & discreet", "Colours of nature" and "Precious metals". Away with white boxes, make way for interiors full of colour and character!

"Subtle & discreet" includes a selection of neutral colours that discreetly blend our units into the interior.

"Colours of nature" is a collection of 16 new colours containing bright, variegated, greyish and pastel shades. From soft natural colours to dark chic. For the bold.

The code deciphered

What does the first digit of the colour code stand for?

Code 1xx ***Soft touch****: finely-textured matte look, gloss degree < 10%*
Code 2xx ***Glossy****: smooth gloss finish, gloss degree +/- 70%*

Only our Guardian and Maxi 2020 units are available in Code 2xx.
View the full overview on page 10.

*Our grilles and frames are available in all colours, with the exception of Sandblast grey 001. In case of intensive use (placement in circulation areas, for example in front of sliding win*dows and doors), wear is, of course, inevitable.

To ensure perfect adherence of the lacquer coating, an extremely wear-resistant and UV-resistant polyester lacquer coating of the highest quality is used.
