Model: 11, 16

Height

STANDARD DELIVERY

Fully pre-assembled vertical radiator with:

- casing made of electro-galvanised 1.25 mm thick steel sheet. With hexagonal perforations (jet black 104) on the longitudinal sides for air supply and exhaust. Easy to hook in on the rear panel.
- rear panel with fixing points made of sendzimir-galvanised sheet steel, jet black 104
- Low-H₂O heat exchanger with 1/2" air vent and 1/2" drain cock.
- 230 VAC connection with watertight connection gland (IP68).
- fan rail, integrated power supply and control system of choice.
- connections can be completely concealed within the casing..

Extension pipes for connection underneath the cladding are supplied as standard.

This heater is not equipped with a condensation monitor. It has to be integrated into the installation (only for cooling).

AIR PROJECTION

Standard

air projection standard to the right

Optional

Air projection left. Replace code R with L.
